Professional Summary

Junior Game System Designer & Programmer with a Diploma from Vancouver Film School and a quantitative BBA background. Experienced in designing gameplay mechanics, authoring GDDs, building combat/AI systems (GOAP), and quantitative balance modeling in Unity and Excel. Award-winning project lead skilled in AI-assisted workflows (Cursor, LLMs) and mobile device QA. Trilingual in English, Mandarin, and Cantonese.

Technical Skills

- **Game Design & Balancing:** GDD Authoring, System Architecture, Combat Mechanics, Economy & Progression Balancing, Grey-box Testing
- **Engines & Programming:** Unity (2D/3D), Unreal Engine (Blueprints), C#, C++, Python, Pygame
- **AI & Workflow Acceleration:** Cursor IDE, Trae IDE, Prompt Engineering, LLM APIs (OpenAI, Claude), Git/GitHub, JIRA, Miro, MS Excel (Numerical Modeling)
- **Languages:** English (Fluent), Mandarin (Native), Cantonese (Native)

Game Design & Development Projects

By The Blade | *Gameplay Programmer & Systems Designer* Feb 2025 – Aug 2025

- Designed combat balance sheets, skill attributes, and cooldown/damage curves in Excel for player and enemy combat systems.
- Implemented and tuned Goal-Oriented Action Planning (GOAP) enemy AI and Inverse Kinematics animations in Unity/C#.
- Authored technical requirements and validated hitboxes, frame timings, and animation state transitions via grey-box testing.

Only the Shadow Knows (VR Project) | *Technical Lead & Level Designer* Jun 2025 – Present

- Designed core VR interaction mechanics, player locomotion systems, and spatial progression puzzles in Unity.
- Leveraged AI-assisted workflows (Cursor IDE) to accelerate rapid prototyping, debugging, and technical documentation.
- **Award:** Silver Award – The Unity China Developer Competition (2025).

MeadowDream (iOS App) | *Product Lead & Lead Developer* Jun 2025 – Aug 2025

- Architected the application stack integrating LLM APIs for automated prompt interpretation and dynamic content generation.
- Performed end-to-end device testing across iOS models to optimize system stability, performance, and UI responsiveness.
- **Award:** Second Best Solution – Trae AI IDE: Zero Limits Hackathon (2025).

Electronic Arts (EA) | *Playtester* Sep 2025 – Oct 2025

- Executed targeted test suites on pre-release builds; logged actionable bug reports covering balance anomalies and mechanical bugs.
- Provided structured qualitative feedback on game feel, UI readability, and feature progression to development and UXR teams.

Work Experience

Tesla | *Customer Experience Specialist / Sales Advisor* Richmond, BC | Mar 2026 – Present

- Troubleshoot proprietary vehicle software, mobile applications (iOS/Android), and onboard connectivity issues for end-users.

TD Canada Trust | *Personal Banking Associate / Customer Experience Associate* Vancouver, BC | Aug 2022 – Apr 2024

- Investigated complex discrepancies; ranked 7th in Pacific Region for customer satisfaction and operational excellence.

Education & Certifications

- **Vancouver Film School (VFS):** Diploma, Programming for Games, Web & Mobile 2024 – 2025
- **Kwantlen Polytechnic University (KPU):** Bachelor of Business Administration (BBA) in Accounting 2018 – 2022
- **Harvard Extension School:** CSCI S-7: Introduction to Computer Science with Python 2024
- **Certifications:** Prompt Engineering for ChatGPT (Vanderbilt Univ.) | AI for Everyone (DeepLearning.AI)
